D. G. Millenbruch

Dear Paul:

I am enclosing the signed second copy of the letter which acknowledges that U. S. Vanadium has accepted as satisfactorily completed Item 3(g) of the Environmental Agreement (Niagara Falls) dated May 13, 1986 between Umetco Minerals and Strategic Minerals Corporation. I have kept a copy for my files here at Niagara.

They are sitting on the write-off on Asbestos - primarily I think - because they do not understand the significance of the 0.01 (f/cc) limit suggested by EPA as a guide to levels that should be achieved after asbestos removal. I will try to straighten them out.

I have also written sign-off letters on the PCB's and Halide Scrubber-, you ~~should have received~~ *will* copies.

My role here is just about complete. If you like, I can write a summary of what has been done on the Environmental Issues.

Meanwhile, take care and accept my congratulations on your promotion.

Regards,

DJH

D. J. Hansen

Subject: Disposal of Sample Cans

Dear Craig:

The last of the metallurgical samples stored in the Global area that dated back as far as 1902 were removed from the Niagara Plant on November 24, 1986 by SCA Chemical Services. A copy of the Hazardous Waste Manifest is appended. An earlier shipment of non-hazardous samples were removed by BFI Waste Systems on October 10, 1986 (manifest appended). Radioactive samples were included in a shipment to Barnwell Waste Management Facility, South Carolina September 19, 1986.

On Wednesday, November 26, 1986, Al Gonas and I accompanied Mr. Herb Wilber to inspect the area in Global where the samples has been stored. A radioactive survey was made at that time to confirm that no traces of the radioactive samples had been left on the shelves or in the storage containers. A copy of the letter from Herb Wilber to you attesting to the satisfactory completion of the sample cans removal is also appended.

This completes the obligation of Umetco Minerals to Stratcor Minerals Corporation as outlined in Item 3 (g) of the Environmental Agreement (Niagara Falls) between Umetco Minerals Corporation and U. S. Vanadium Corporation which reads:

"(g) Sample Cans Umetco further agrees to assume the cost of removal and disposal of the numerous small sample cans in the global area."

Would you and Dr. Miller, as members of the Stratcor Environmental Coordination Committee for the Niagara Plant, acknowledge acceptance by signing the second copy of this letter and returning it to me.

Very truly yours,

Donald J. Hansen

(To be attached to the Manifest Form for first time shipments, annually, when the waste stream composition changes, or when otherwise required by NYSDEC)

Part A (General)

1. Describe the process producing the waste (including the representative SIC code).

MANUFACTURING OF METAL ALLOYS
METAL ORES

2. Is this material a "one time" shipment or a continuing waste stream?

ONE TIME

3. Is this material from an inactive hazardous waste site or spill cleanup?

NO

4. a. Does this waste contain organic chemicals?

NO

- b. If so, does this waste contain:

1. aromatics?
2. halogenated organics?
3. nitrogenated organics?
4. low molecular weight organics?

NO

NO

NO

NO

5. Does this stream contain any organic materials listed in 6NYCRR 366.4(d)(5) and 366.4(d)(6) (P-list or U-list)? If so, list them:

NO

If any of the answers to question 4 or 5 were yes or unknown, complete Part B of this certification for those classes of materials which are known or suspected to be in the waste. If you answered no to all of these questions; please sign the following certification:

BASED ON MY KNOWLEDGE OF THE PROCESS AND CHEMICALS USED IN GENERATING THE WASTE, I CERTIFY THAT THESE WASTES QUALIFY FOR LANDBURIAL UNDER THE NEW YORK STATE LANDBURIAL BAN AS DESCRIBED ON THIS FORM. I FURTHER CERTIFY THAT I WILL RESUBMIT THIS FORM IF THE WASTE STREAM COMPOSITION CHANGES IN A WAY WHICH MIGHT INCREASE THE CONCENTRATIONS OF ORGANIC CHEMICALS IN THE WASTE STREAM.

IT IS A CRIME, PUNISHABLE AS A CLASS A MISDEMEANOR UNDER THE LAWS OF THE STATE OF NEW YORK, FOR A PERSON, IN AND BY A WRITTEN INSTRUMENT, TO KNOWINGLY MAKE A FALSE STATEMENT, OR TO MAKE A STATEMENT WHICH SUCH PERSON DOES NOT BELIEVE TO BE TRUE.

TO: C. T. Wentzel
COPY: D. J. Hansen
SUBJECT: Sample Cage

The sample cage is clean and all samples have been removed. This area is also clean of radioactivity. Numerous sample jars have been left for J. Cooper. These jars are physically clean, but haven't been rinsed. As far as I'm concerned, Umetco has fulfilled their clean-up requirements.

H. M. Wilber
